

Summer Holiday Family Fun

Langford Lakes nature reserve

Every Friday morning
10.00am – 12.00pm

Friday 30th July Brilliant Birds

Join us as we discover how to identify birds using sound, shape, colour and behaviour. We will be going for a walk to the bird hides so don't forget your binoculars.

Friday 6th August Wacky Water

Discover more about our rivers and the creatures that live there. We will chat about where our tap water comes from, make some watery craft creatures to take home and go for an amble along the River Wylye - don't forget your wellies.

Friday 13th August Fish and Fry!

Ever wanted to learn how to catch a fish? Then take this opportunity to discover what fish live in the lakes at Langford, what they like to eat and enjoy a spot of fishing at the same time. The session will end with the chance to taste a fish cooked on the BBQ.

Friday 20th August Beautiful Bees

Why do bees have smelly feet and how do they make honey? Join us as we buzz around learning more about bees. We are hoping to be joined by a Wiltshire bee keeper who will bring along a hive to show us the bees in action.

Friday 27th August Marvellous Minibeasts

Who lives under a log, in the long grass and in the pond at Langford? Armed with nets, bug pots and magnifying glasses we will explore and discover the smaller creatures on our reserve.

For all our events please remember:

- all children must be accompanied by an adult
- to wear suitable outdoor clothing
- all activities are designed for families with children under the age of 12 years
- and finally **to book a place please call 01722 792010**

Cost: £3.50 per child (under 3's free)
